

Attn: All Prospective Charterers.

Subject: M/V HUDSON SWORDFISH – IMO 9788291 – Offshore Supply Vessel Available for Charter

Dear Sir/Madam,

We are pleased to introduce M/V HUDSON SWORDFISH (IMO 9788291), a Nigerian-flagged offshore supply / platform supply vessel available for suitable offshore support employment, subject to owner's confirmation of present position and availability.

The vessel was built in 2019 and is publicly recorded at approximately 49 m LOA and 21 m beam, with a reported summer DWT of approximately 70 tonnes.

HUDSON SWORDFISH is intended for employment in Nigerian and Gulf of Guinea offshore oil & gas operations, including platform supply, offshore logistics, field support and other duties consistent with her class, certificates and installed equipment.

We are inviting enquiries for:

- Time Charter;
- Short-term or spot charter;
- Project charter;
- Consecutive or call-off offshore support; and
- Framework agreements with oil & gas operators and offshore service contractors.

Interested charterers are requested to provide their required charter period, work scope, operating area, delivery location, minimum technical requirements and expected commencement date.

The vessel's current Q88/offshore vessel questionnaire, class/statutory certificates, equipment list, P&I details, inspection information and commercial terms can be supplied to qualified charterers upon request.

All particulars remain subject to Owner's confirmation and a mutually acceptable Charter Party.

Kind regards,

Chartering Team
